

# GREYHOUND

## Intermediate Ryegrass

Value

Innovation

Service

Expertise

Blending innovation and value into exceptional seed products. Mixing incredible service and expertise to form lasting relationships.

Not satisfied with the results of the turf-type Annual Ryegrass available? Looking for the turf quality of top rated Perennial Ryegrass, but frustrated with their inability to transition effectively? **Greyhound** Hybrid Ryegrass was bred “backward”, starting with high end turf Perennial Ryegrass plants, and hybridizing them to incorporate the beneficial attributes of Annual Ryegrass. The result is a combination of the best attributes of both Perennial and Annual Ryegrass. Developed to specifically for overseeding and nurse crop applications. This Intermediate Ryegrass is designed to establish quickly in the fall and fade away in the spring. Year round performance on home lawns, parks, play areas, and athletic fields. Permanent turf applications on golf course fairways and roughs.
