

# RHAMBLER SRP

## Tall Fescue

Value

Innovation

Service

Expertise

Blending innovation and value into exceptional seed products. Mixing incredible service and expertise to form lasting relationships.

**Rhambler SRP** is an entirely new generation of Tall Fescues. The presence of rhizomes creates a self-repair potential for this species which can speed establishment, improve traffic tolerance, and increase recovery potential from damage. With its dark color and fine texture, **Rhambler SRP** is a natural blend with 10 percent Kentucky or Texas bluegrass. Tall Fescue's expanded adaptation range, improved color and texture, puts its inherent drought and shade tolerance have make it the preferred turfgrass in the Midwest.

### Features & Benefits

- > EXCEPTIONAL PERCENT SPRING GREEN-UP RATINGS
- > GOOD BROWN PATCH RESISTANCE
- > FINE TEXTURED AND DARK GREEN COLOR
- > EXCELLENT ESTABLISHMENT RATINGS
- > STRONG SEEDLING VIGOR
- > HEAT TOLERANT
