

SYMPHONY

Tall Fescue

Value

Innovation

Service

Expertise

Blending innovation and value into exceptional seed products. Mixing incredible service and expertise to form lasting relationships.

Symphony has overall great quality for a turf type tall fescue. It's dark green color, fine texture, and high level of turf uniformity give it the appearance that is desired. It was rated a 97.2% for living ground cover in the NTEP Test and ranked towards the top of the group in the Pacific, Transition, Southeast, and North Central regions. **Symphony** has great resistance against brown patch, pink patch, and grey leaf spot diseases. This turf type variety makes for beautiful looking and strong growing turf in a span of conditions.
